

LEONARDO DA VINCI ACADEMY'S NEW CAMPUS

June 15, 2021

Thanks to the work and dedication of the late Architect Renzo Pilon, Leonardo Da Vinci's Academy renovated new campus is an exciting and inspiring brand-new home for our school. Sadly, Renzo, who also served as a former Chair and President of the Columbus Centre, passed away unexpectedly before LDVA moved into its new home. Renzo's heartbreaking and sudden death preceded a milestone in the history of LDVA. The joy experienced by our students, parents, and staff on February 17, 2021 (Ash Wednesday), the day LDVA moved into its new home, will be a memorable part of Renzo's legacy.

Features of our new campus include a renovated well equipped gym; classrooms with modern whiteboards; well-equipped and sun filled Montessori rooms for Scuola, Casa, and Lower Elementary; a Music Room, and a very special and unique *Leonardo Room*. To balance all the new modern technology the Academy is adorned with classic art, oak church benches, and a historical blueboard framed in oak.

LDVA will have access to the Columbus Centre's swimming pool, outdoor space, and other updated facilities including a new restaurant. The Academy's annual *Serata Italiana* and other concerts will be held in the elegant *Columbus Centre Rotunda* space which will serve as the Academy's assembly hall.

The Academy has an Instagram presence which has been receiving numerous hits. Please feel free to follow LDVA on Instagram and Facebook.

The Academy's Instagram username is **@ldva_toronto**.
